 Rum, Austria

 for EU residents

Oktober 2026 - August 2027

Your Hosting Organisation: SOKO Rum

Our nursing home "Soziales Kompetenz- zentrum Rum" (SOKO Rum) **takes care of seniors and dependent persons** based on short- and long-termcare. For this purpose, the town of Rum has created our special housing complex that consists of 69 single rooms and 13 barrier-free rooms for the elderly.

Our modern facility with its excellent infrastructure is a wonderful place that offers its residents peace and quiet. The guiding principle of our home is "You will be well taken care of". Which implies that the residents with their **autonomy and individual personalities** are the focus of our facility. Our team does their best in order to provide the ideal conditions for the elderly especially through taking the residents' individual needs and life stories into consideration. It is very important for us to not only take care of the body but also the spirit and mind of our residents. **Mutual respect and responsibility** are the basic elements of our philosophy. Other values that are of great importance for us are: understanding, engagement, professionalism, reliability, equity and clarity.

Every resident has at disposal their own room with a bathroom and a balcony or a terrace, which is located in one of the two residential floors. In each of this units there is a joint living area, whereas the residents can take their meals as well as spending time together as a community in the meantime. Furthermore, the residents can have a cup of coffee in the **café**, take advantage of different **therapy rooms**, take a walk to a nearby **garden** or simply enjoy the sun on one of our two **terraces**. The residents are encouraged to spend their time on many activities that are organised by the multiprofessional team, either inside or outside.

Your Tasks & Activities

Your tasks involve taking care of the elderly during their **day-to-day activities** but also supporting them in their **free time**. The residents are encouraged to spend their time on many activities that are organised by the multiprofessional team, either inside or outside. Hence, our therapist team provides a lot of interesting activities for the residents like trips, creative workshops, gymnastics groups, memory trainings, gaming afternoons, bowling and many more. It is very important for us to create a lot of stimulating opportunities for our residents regarding their individual interests and needs.

You will be part of creating your monthly roster which guarantees that you are engaged in a variety of tasks and activities.

As your tasks include supporting the elderly during mealtime, setting the tables, serving food and cleaning, you will cooperate closely with the nursing team but not take over any nursing yourself. Thus, you will spend a lot of time with the residents during their day-to-day habits and you are likely to be confronted with all kinds of situations.

In the surrounding of a retirement home this also includes situations related to illness, rapid health deterioration and death. You will never have to deal with acute problems of the residents on your own, but you should know you may witness these situations at first hand. Therefore, it is important for you, us as a team and the residents that you can deal with these circumstances mentally. You will cooperate with the psychosocial team where you can receive advice or help.

You will work five days a week, around **35 hours a week** including a **language course**. There will be a weekend, this means two consecutive days off every week. You also get two vacation days per month which you can accumulate. In addition, National Holidays are free days for you as well. The nursing home is in the surroundings of the train station and the journey to Innsbruck by bus takes roughly 20 minutes. Considering that, you will get a **public transport** ticket that allows you to discover beautiful Tyrol. Since you will spend a lot of time in the Austrian society, it is a good opportunity for you to get to know better the Tyrolean culture.
